Points will be allotted as follows:

In event of a tie, First will be given 1 extra point.

If still tied Seconds will be given 1 extra point, etc.

This award may not be won 2 years in succession by any one exhibitor.

CONDITIONING PROCEDURE:

With a sharp knife, cut all flower stems on a diagonal to keep them from resting flat on the bottom of a container, since this stops the upward flow of water.

Hammer ends of all woody material so water may be absorbed easily. Char two inches at stem end of plants with milky sap (poinsettias, poppies, milkweed, etc): this seals juices in but allows water to rise.

Stand flowers in deep, tepid water to condition; wrap snugly in newspaper any that have a tendency to develop unwanted curves, such as tulips.

This means that the print must be totally covered on the back with spray adhesives, appropriate craft glues, securing tape designed for this purpose, glue stick or dry mounting tissue. This also means that the print will be securely fastened in order to stand up to the hanging and display at the Fair with no chance of coming loose and falling on the floor. **Prints not properly secured shall not be judged or displayed.** If a print falls from its mount during the Fair it may be removed from the display.

No print shall be adhered to the face of a mounting board or matt with photo corners, tape or staples. Matts are not to have their edges stapled together since they will scratch the other entries and also injure the Committee members handling the entries. **Entries that do not follow the mounting rules will be disqualified.**

Hanging and Display of Prints - The Photography Committee will endeavor to hang and display all entries that have or have not been judged. In the event that we have an over abundance of entries, we regret that due to our limited space we may not have the room to display the prints that were not judged.
